🐙 github.com/Deepika22-d

Profile Summary

Electronics and Communication Engineering student with knowledge in Java, IoT, Embedded Systems, HTML, CSS, and MySQL. Interested in software development, problem-solving, and learning new technologies. Seeking an opportunity to apply technical and analytical skills in the IT industry.

Education

Bachelor of Engineering (B.E.) – Electronics and Communication Engineering

M. Kumarasamy College of Engineering 2023 – 2027
CGPA: 8.28

Higher Secondary Certificate (HSC)

GGHSS School, Chinna Dharapuram 2022 – 2023
Percentage: 86%

Skills

Programming Languages: Java, Python (Basic)

Web Technologies: HTML, CSS

Database: MySQL

IoT and Embedded Systems: Arduino, ESP8266

Core Concepts: Digital Electronics, Analog Electronics, Embedded Systems

Soft Skills: Communication Skills, Team Collaboration, Time Management, Problem Solving

Projects

Smart Crop Disease Detection and Action 2025

GitHub Link

Technologies: Python, Machine Learning, Image Processing

- Developed an AI-based application for crop disease detection using plant images.
- Applied machine learning and image processing techniques for disease classification.
- Improved disease identification and recommendation support for farmers.

Smart Water Pipeline Monitoring System 2026

GitHub Link

Technologies: Arduino, IoT, Sensors, Embedded Systems

- Developed an IoT-based system for monitoring water flow and leakage detection.
 - Integrated sensors with Arduino for real-time monitoring and alert generation.
 - Improved water management through automated monitoring techniques.
-

Internship

Popular System – Internship 2025

- Learned hardware assembly, circuit testing, troubleshooting, and quality verification procedures.
 - Worked with electronic components and basic hardware maintenance processes.
 - Received a stipend of INR 8000 during the internship.
-

Publication

Conference Publication – Smart Crop Disease Detection and Action

Published an IEEE-indexed conference paper on crop disease detection using machine learning methods.

Achievements

- Participated in a 24-hour Hackathon at KPR College of Engineering 2025
- Won First Place in Product Expo, LUNARA'26 for the project Smart Water Pipeline Monitoring System at Bannari Amman Institute of Technology 2026
